SCAN & PAY

GURU NANAK DEV UNIVERSITY is accredited A++ by NAAC with CGPA of 3.85 out of 4, conferred with "University with Potential for Excellence" status by UGC and is ranked 44 by NIRF. The Guru Ramdas School of Planning (GRDSP) is a premier institute in North India working with the motto "SHAPING SPACES TO SHAPE FUTURES". The objective of the School is to impart education and training in the field of Urban, Regional, Infrastructure and Transportation Planning.

ABOUT THE SEMINAR

United Nations has designated Urban October to develop awareness, promote participation, generate knowledge and engage the international community in creating a better urban future. Cities are engines of economic growth and are transforming at a fast pace. Urban Transformations deals with a set of planning measures and requirements which significantly change the features of various settlements by altering the urban environment quality. The deliberations in the light of sustainable development goals and ground realities need to be critically analyzed from the researchers perspective, so, that the irreversible changes likely to occur shall be towards the positive outlook for the coming generations. A timely action plan in the light of the mitigating strategies shall further act as a backbone in protecting the environment and enjoying the urbanized world simultaneously.
